

PRECISION PROTECTION FOR DELICATE EQUIPMENT

Keep all your Robotics Arms Instruments safe and secure from CSSD/SPD storage to the OR. Tailor-made for Robotics equipment, this closed-loop system of racks and carts ensures protection, organization, and efficient transport, with full access and easy-to-clean design

✓ DEDICATED FIT

Extra-large trays designed specifically to fit Robotics Arm instruments. Can be divided in four

✓ SAFE STORAGE

Protect valuable instruments with telescopic slides and locks—minimizing damage and reducing replacement costs

✓ PREMIUM QUALITY

The same Salus you know and trust, now adapted with a new wider frame to fit 80x60 modules and enhanced stability
