

PHLEBOTOMY ECOLINE 40x40 CART

MADE FOR SEAMLESS BLOOD COLLECTION

Designed for fast-paced workflows, our Small Footprint Phlebotomy cart moves easily between patients and stations. Its compact, ergonomic design keeps everything accessible while reducing strain and improving safety for both staff and patients

✓ EFFICIENT IN EVERY INCH

Keep all essentials within arm's reach in a compact cart that fits easily in tight bays without crowding the space

✓ SAFE FOR STAFF & PATIENTS

No sharp corners — smooth, rounded edges help prevent cuts and snags during seated blood draws

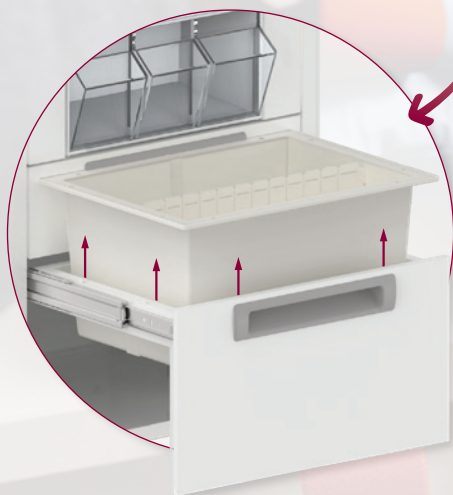

✓ MADE FOR MESSY JOBS

Sometimes spills happen. **Removable drawers** and non-porous surfaces make thorough cleaning simple, while smooth mobility lets you sanitize the area around the cart with ease
